DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9, 11-19, and 21-26 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 1, 11, 21, and 26 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest:

As in claims 1 and 26, "responsive to detecting the event caused by the abstracted hardware in the platform, storing, by the platform, the event in a queue associated with the partition firmware before an interrupt is issued; generating, by the platform, an external hardware interrupt for the event, wherein the platform sends the external hardware interrupt to an operating system operating on a first partition of the at least two partitions."

As in claim 11, "generating means, responsive to detecting the event caused by the abstracted hardware in the platform, for generating by the platform an external hardware interrupt for the event, wherein the platform sends the external hardware interrupt to an operating system operating on a first partition of the at least two partitions; storing means, responsive to the event, for storing the event by the platform in a queue associated with the partition firmware before an interrupt is issued."

As in claim 21, "first instructions, responsive to detecting the event caused by the abstracted hardware in the platform, storing, by the platform, the event in a queue associated with the partition firmware before an interrupt is issued; second instructions for generating, by the platform, an external hardware interrupt for the event, wherein the platform sends the external hardware interrupt to an operating system operating on a first partition of the at least two partitions."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip Guyton whose telephone number is (571) 272-3807. The examiner can normally be reached on M-F 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Beausoliel can be reached on (571) 272-3645. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
